

digi test Easy

EN

ASTM
D1415

DIN
ISO
48-2

Hardness tester for the “IRHD Normal” testing method for measuring the hardness of rubber, plastic, and all elastic materials with a minimum material thickness of 8 mm.

MEASURING METHODS

Our user-friendly hardness testing device digi test Easy offers you the ability to perform fully automated hardness tests using the IRHD N testing method. The digi test Easy combines the attractive price of the IRHD Compact with the comfort and automation of the digi test II.

The simple operation of the digi test Easy allow you to quickly measure your test specimens according to IRHD N. Get your measurement result at the push of a button.

KEY FEATURES

Fully automated hardness testing at an entry-level price. Thanks to the easy-to-use testing process, hardness measurements can be carried out effortlessly on your desired samples.

Proven technology – Made in Germany since 1954

The digi test Easy combines the attractive price of the IRHD Compact with the comfort and automation of the digi test II.

Automatically controlled lowering at standardized speed ensures consistent testing conditions for every application.

Minimal shipping effort for annual calibration

Simply send in the measuring unit of the digi test Easy – we'll take care of the rest.

Includes free „QuickMeasure“ software tool

The free software allows you to easily capture, print, and export your data.

Available with ISO 17025 certification.

We have been an accredited laboratory by DAkkS since 1996, following DIN EN ISO/IEC 17025:2018 standards.

TECHNICAL SPECIFICATIONS

Test stand with support arm and measuring device		Voltage	100 – 250 VAC
Measurements (W x D x H)		Current	2A
min. 20 x 55 x 25 cm max. 20 x 60 x 31 cm		Frequency	50 / 60 Hz
Electronic unit		Protection class	IP 30
Measurements (W x D x H)			
min. 26 x 11,5 x 26,5 cm max. 26 x 11,5 x 34 cm			
Total weight			15 kg

ACCESSORIES

Barofix Basic
Quick centering device for
O-rings.

**DAkkS accredited calibration
certificate for the measuring
device.** The calibration
takes place according to
DIN EN ISO/IEC 17025.

BareissOne Easy Software
for data collection and
analysis

**Reference blocks with
ISO 17025 accredited
calibration certificate**
